PRODUCTION OF RESHUFFLE

The deed is done, Reshuffle has parted from a long and productive relationship with Acorn hardware and the DTP software 'Impression'

Welcome now to the Windows PC and the software 'Adobe InDesign', the conversion has been hard work and time consuming but it needed to be done.

Most of the photographs were shot with digital cameras and imported directly.

This also means that the whole magazine can be exported to the ESF website and is accessible from the front page of 'Shambles' <<http://www.shambles.net/>> in 'pdf' format for the first time.

*Contributions for **RESHUFFLE 2002** are welcome at any time during this year before 31st May 2002.*

Many thanks to these companies for supporting the ESF, I hope that readers will, in return, be able to support the advertisers.

If you do contact any of the above as a result of reading this then please let the company know you saw them in Reshuffle.

Apologies to those advertisers that had to be turned away due to a lack of space this year, please see page 37 for details and deadlines for next.
