

About the Conference

The world around us is changing rapidly and so too are the environments in which we work and study. The increasing use of ICT in education is having a profound impact on our learning communities as traditional forms of learning and teaching are adapted and transformed into online and e-learning experiences or blended forms of learning and teaching. The physical spaces in which we work and study are also being adapted to our changing needs based on what we can now do online and new learning opportunities within and outside conventional institutional settings and work environments. The theme for this Conference focuses on these emerging technologies and how they are used to support innovative practices in existing and new virtual and physical spaces.

The Conference will include keynote addresses, paper presentations, workshops and demonstrations.

Conference theme

Papers are welcome on topics relevant to the Conference theme of '**Technology-enriched Learning Spaces**'. These include, but are not limited to, the following:

- virtual versus physical;
- emerging pedagogies supported by new technologies;
- case studies of innovative practices using technologies;
- blending technologies and teaching practices;
- ICT in workplace-based study and lifelong learning;
- virtual communities; and
- Web 2.0 in learning.

Submission of abstracts

Abstracts and papers should be written in English. Abstracts should not exceed one A4 page in length (about 300–500 words; 11-point Times font is recommended). Both the title and the name(s) of the author(s) should be included. *Electronic submission of abstracts via the Conference website is strongly recommended.* If an abstract is submitted by post, both a hard copy and disk copy should be included and sent to the Chair of the Organizing Committee (see address in the Registration Form).

Demo Fest

This year we will have an exciting new event where participants can demonstrate their e-learning work — e-learning applications/courseware/learning spaces/ e-teaching tools/innovative projects. Best Project Award will be chosen based on participants' votes. For details on submission, please visit the Conference website.

Venues

The Conference will be held on the OUHK campus on day 1 and at St Paul's Convent School on day 2:

7 July: The Open University of Hong Kong

30 Good Shepherd Street, Ho Man Tin, Kowloon, Hong Kong SAR, China

8 July: St Paul's Convent School

140 Leighton Road, Causeway Bay, Hong Kong SAR, China

Conference language

The Conference will be conducted in English. Some papers will be presented in Putonghua.
